CAR HAULER

CAR HAULER

Competence made affordable

Car Hauler represents everything that a true Brian James Trailer embodies. Light, low and capable combined with an extremely attractive value for money price.

The choice of lengths, either 4.0m or 4.9m will readily provide for almost any requirement, especially with its 2.0m wide bed. The base trailer can also be specified with 12" or 13" wheels to suit different environments. Brand new operational features include the ability to add a hydraulic tilt-bed facility to any model at any time in the future, innovative assistor ramps for ultra-low clearance loading and LED lighting as standard.

We've included a few extra neat touches such as the extremely easy ramp and location system, number plate mounting brackets and low door clearance, all as standard on all models.

Brian James Trailers technically advanced design and manufacturing keeps weight low and durability high. With a 2,600 kg gross capacity you will find a Car Hauler model to suit you.

● High grip, low profile punched ramps

Grippy, low profile 1.7m loading ramps feature useful lifting handles for easy handling. An innovative optional assistor ramp can be stored in the same space without modification.

● Low Loading angle

Here we can see the benefit of a tilt-bed operation, plus long loading ramps. Cars such as this Radical will also require special assistor ramps which can be specified as an option.

○ Tie-down wheel 'sling' straps

Designed to provide multi-directional tension around the vehicle wheel. Soft links prevent any damage to the wheel rims. Essential for safety and piece of mind that your vehicle is tied down correctly. Easy to fit with multiple built-in tie-down points.

○ Hydraulic tilt-bed reduces loading angles and can assist in ease of operation.

● LED lighting
Super bright and extremely durable.

○ Wheel chocks, bolt in (pair)
Fully adjustable wheel chocks bolt directly to the chassis bed.

CAR HAULER

STANDARD

50mm ball coupling head

Heavy duty jockey wheel

OPTIONAL

Centre deck infill to the centre provides safety and protects the underside of vehicles being transported.

OPTIONAL

Manual winch
Auto braked operation manual winch is fitted with steel wire rope and is guided through a set of rollers.

OPTIONAL

CAR HAULER

QUALITY

Brian James Trailers are manufacturers of class leading trailers, since 1979. When you buy a Brian James Trailer you can be absolutely certain that it is designed and constructed to the highest possible standards. Our Engineers combine top-quality craftsmanship with the best materials and first-class presentation. Light but strong, our trailers are crafted to enhance safety, efficiency and durability.

5 Year Extended Chassis Warranty

This Brian James Trailer is provided to you with a standard 1 year non-transferable manufacturers warranty covering the integrity of the chassis, which can be extended to 5 years upon registration.

We warrant that under normal use, outside of accident damage or misuse (meaning driven across unsuitable territory or being overloaded) the chassis will not fatigue or fail to be able to perform its intended duties safely.

Any repair or rectification as a result of a claim under this warranty will be at Brian James Trailers cost and be carried out either at a Brian James Trailers main dealer, or at the factory HQ in Daventry, UK, at the discretion of Brian James Trailers Ltd. A repair may involve removal of the original galvanised surface finish, for which we will not liable to reinstate to its original state.

Brian James Trailers will not be liable for any consequential loss in connection with a claim on this warranty, including recovery fees or transport to or from the place of final repair.

5 year extended warranty applies to the chassis only. All other components are subject to a standard 1 year warranty, subject to fair wear and tear.

Standards

* 1 year warranty as standard. Additional 4 year warranty period requires product registration.
